Senegal. I happen to know Senegal personally because my church is sponsoring lay missionaries in Senegal to help the agriculture crisis within that country to help them help themselves, in other words. What this would do with this country is very similar to what my church is trying to do in Senegal. Now what we are asking here is that the State of Nebraska sponsor getting the grain and the feed supplies to Mauritania and the federal government will supply the grain. If many of our states would do this, it would cut the supply of grain down 20 percent or even more, but it would raise the price of our grain and could maybe save many of our people from going into bankruptcy. I think this is a solution to the problem that we have, but it is a matter of our federal government getting involved and the State of Nebraska getting involved. And what this resolution says is passing a message to our Governor and to our federal government to get involved with this project. Thank you.

SPEAKER NICHOL: Any other discussion on the resolution? If not, you have heard the resolution, all those in favor vote aye, opposed nay. Have you all voted? Record, Mr. Clerk.
